Registration criteria

A diploma can be registered in the register of formal higher education qualifications :

- if it is a final higher education diploma ;
- if it is a final diploma of successful completion of a full study cycle ;
- if it was obtained in accordance with the laws and regulations regarding the higher education system in the country where it was awarded. Diplomas that are not recognised as academic degrees by the State authorities in the country in which they were issued cannot be registered.

Please note that the registration of formal higher education qualifications represents the academic recognition procedure for foreign higher education diplomas, although without conferring a right to practice a regulated profession. It confers the right to use the academic title.

For more information about the present procedure, and more particularly the diplomas concerned by the automatic recognition related to the BENELUX agreement, we invite you to visit our website :
